Request for Offers (RFO) Addendum

RFO Number: <u>RFO0067</u>

Addendum Number: <u>01</u>

Date of Addendum: <u>June 11 2015</u>

Original Due Date, Time: <u>June 15, 2015; 4:00 p.m. CT</u>

Date, Time (if changing): <u>NA</u>

Title: <u>MNsure – Lead System Analyst</u>

SCOPE OF ADDENDUM
The following are changes to the RFO: **Modifying the Required/Desired Skills and Posting questions and answers:** (In this Addendum, changes to pre-existing RFO language will use strike through for deletions and underlining for insertions.)

Required Skills (to be scored as pass/fail)
The following skills are required for resource(s) being submitted. These are scored as pass/fail.
- Knowledge of outbound and inbound 834 system design
- At least 2 years' Experience with Federal 834 requirements
- UNIX experience including text manipulation
- At least 5 years' Experience reading the 834 EDI file format
- 2 years' experience incorporating WCAG 2.0 and other accessibility requirements into projects.

- ~~Experience with secure coding principals such as OWASP Top 10, SANS top 25~~
- ~~Experience with IRS Pub 1075 and NIST 800-53 rev4~~

Desired Skills
Points will be scored based on the following criteria as well:

- Computer Science or Information Technology degree
- Proven understanding of all aspects of the Software Development Life Cycle (SDLC)
- Experience with health insurance programs
- Proven, i.e. resume-worthy, experience working with the following
  - Core Java
  - J2EE
  - Spring Core
  - Spring JDBC
  - AXIS2, XML
  - XSD
  - SOAP
  - MAVEN
  - Active VOS
  - Apache open source Libraries, WebSphere, Oracle
  - Drools
  - TOAD
  - IID
  - CMIS Workbench
  - BIRT
  - Putty
  - WinSCP

- o WTX
- In-depth knowledge of EngagePoint Content, Audit, Notify and Finance
- In-depth knowledge of all integrated vendor code In the MNsure system:
  - o Cúram
  - o Connecture
  - o PWC
  - o MMIS system
  - o Fed-Hub
  - o PRISM
  - o VLP
  - o MAXIS
  - o TALX

- <u>Experience with secure coding principals such as OWASP Top 10, SANS top 25</u>
- <u>Experience with IRS Pub 1075 and NIST 800-53 rev4</u>

Question 1: Does DHS have an incumbent contractor(s) either currently working, or who recently worked, on this project?
Answer 1: No, there are no incumbents in this position. This is a new position with new funding.

Question 2: Are the incumbents eligible to respond to this solicitation?
Answer 2: Not applicable – new position.

Question 3: If there are incumbents, can you provide the names of these incumbents?
Answer 3: Not applicable – new position.

Question 4: Please confirm that all candidates need to have experience with both IRS Pub 1075 and NIST 800-53 rev4? Or if a candidate has experience with only one or similar standards, will you consider them?
Answer 4: The Required and Desired Skills sections have been modified in this addendum.

Question 5: Please clarify what you mean by "diagnostic analysis" of the MNsure system as changes/issues are reported as requested in the first paragraph of RFO 0064 and in the second paragraph of RFO 0067. What we are looking for is possibly specific responsibilities in troubleshooting or root cause analysis or do you want a report or break/fix work? Diagnostic Analysis is a little vague.
Answer 5: We expect the applicant, upon request, to analyze a reported issue, offer a solution, and to help troubleshoot as well as provide a root cause analysis.

Question 6: There are Pass/Fail requirements listed such as: "Experience with IRS Pub 1075 and NIST 800-53 rev4" , and "Experience with secure coding principals such as OWASP Top 10, SANS top 25" These are very specific programs, are these truly a Pass/Fail requirement?
Answer 6: The Required and Desired Skills sections have been modified in this addendum.

This addendum shall become part of the RFO and should be returned with, or acknowledged in, the response to the RFO.
